

How to Manage Research Teams

Designed and facilitated by Dr Sandra Mandic, PhD, PMP

Getting the right people on the project team – and keeping them there – is essential for successful planning and implementation of research projects. Yet postgraduate students, researchers and academic rarely receive training in research team management.

This course will explore characteristics of effective team leadership practices and leadership styles in the context of research projects and programmes.

Specific Course Objectives*

Discuss characteristics of high-performing research teams and effective research team leaders

Explore good practices for building and managing high-performing research teams

Discuss leadership styles and their strengths

Participants reflections on becoming an effective research team leader

Target Audience

Researchers, academics, post-doctoral fellows and Doctoral students
