

How to Establish and Lead Successful Research Programmes

Designed and facilitated by Dr Sandra Mandic, PhD, PMP

Establishing, leading and managing successful research programmes requires extensive experience and skills in leadership, strategic planning, collaboration, team management, stakeholder management, project and programme management and securing funding – in addition to strong research expertise.

Using a workshop-style delivery, this interactive training will explore enablers and barriers at each stage of the research programme development.

Specific Training Objectives*

Introduce stages of research programme development

Discuss enablers and barriers to progress at each stage

Share insights from a real-world successful research programme

Provide an opportunity for participants to reflect on and share their experiences with establishing and leading research programmes

Target Audience

Researchers, academics, post-doctoral fellows and Doctoral students
